**Empowering People: Providers Shaping Policies**

DEFENDING THE ACHIEVEMENT

Beginning in calendar year 2027, the potential erosion of Medicaid and SNAP funding because of federal legislation, “OBBA,” risks the relatively recent and hard-won achievements made by individuals with I/DD.

The goal of ABCD’s campaign, *Defending the Achievement*, is to maintain government investment in home and community-based services, health care, and safety net services, for individuals with intellectual and developmental disabilities and delays.

Family

In this video we see the inherent value of family providing community-based supports. Not only does the policy increase options for care and decrease financial stress, it promotes stability and recognizes the role of families in supporting individuals with intellectual and developmental disabilities. Spend a little time with this lovely family.

Stories like these exist only because of the vision, commitment, support and partnership of federal and state government which began with the DD Act and Education for all Handicapped Children Act in 1975, the Civil Rights of Institutionalized Persons Act of 1980, The Americans with Disabilities Act of 1990, the Olmstead Decision of 1999 and increased Medicaid funding for home and community-based services (HCBS). Despite these achievements, Medicaid and other resources remain forever in governments’ crosshairs. For people with IDD, Medicaid is not simply a health care program, but the system that enables them to live in the community.

DEFEND OUR SOCIETY’S ACHIEVEMENTS

No cuts to IDD service and support.
